

# Oregon Open Crime Data Analysis

Russell\_Corey

October, 19 2022

## Intro

We will explore crime reports in Oregon. We will look at the number of reported offenses as aggregated by both month and county along with a close look at violent offenses in particular. Rates of offense aggregated along counties will be normalized using 2020 Census data.

## Data

The two data sources used are the “Uniform Crime Reporting” Offenses data and the Oregon 2020 Census data from Portland University.

**Crime Data** The crime reporting data set is accessible directly from  
<https://www.oregon.gov/osp/Pages/Uniform-Crime-Reporting-Data.aspx>

**Population Data** The Oregon census data can be found at the website  
<https://www.pdx.edu/population-research/census-data-oregon>  
with the direct link being

<https://drive.google.com/uc?export=download&id=1JrrmYiQUBPux8nnJ88epAAk9U5rbRDBD>

## Data Exploration

Overview of number of records collected per month and the total number of distinct offenses for the data set.

Table 1: Offenses Reports

Agency Name	County	Incident Date	NIBRS Crime Against	NIBRS Crime Description	NIBRS Report Title	Distinct Offenses
Warrenton PD	Clatsop	8/31/2022	Property	Destruction/Damage/Vandalism of Property	Vandalism	1
Warrenton PD	Clatsop	8/31/2022	Society	All Other Offenses	All Other Offenses	1
Warrenton PD	Clatsop	8/31/2022	Society	Drug/Narcotic Violations	Drug/Narcotic Offenses	1
Wasco SO	Wasco	8/31/2022	Other	Oregon Specific Crime (ONIBRS)	Traffic Crime	1
Woodburn PD	Marion	8/31/2022	Property	Counterfeiting/Forgery	Counterfeiting/Forgery	1
Woodburn PD	Marion	8/31/2022	Property	Shoplifting	Larceny/Theft Offenses	4

Each record has a count of distinct offenses. We can compare the number of reports per month and the total number of distinct offenses.

Table 2: Recent Offenses

	month	Total Records	Total Distinct Offenses
27	2022-03-01	15956	30605
28	2022-04-01	14562	28152
29	2022-05-01	14415	28177
30	2022-06-01	13943	26724
31	2022-07-01	12771	20322
32	2022-08-01	9093	14657

There is a sharp decline in the last month. We will ignore that month, assuming that it is due to a lag in reporting and assimilating.

## Population

For per ca-pita calculations we need to know the population broken down by counties. This data is in the Census data set. The data gives us the population in 2010 and 2020 along with the percentage change.

Table 3: County Population

county	2010	2020	percent change
oregon	3831074	4237256	10.6
baker	16134	16668	3.3
clackamas	375992	421401	12.1
lane	351715	382971	8.9
multnomah	735334	815428	10.9
washington	529710	600372	13.3

Using simple linear model we can use the recorded rate of population change along with initial 2020 population to interpolated populations for months in our data set.

## Note: Using an external vector in selections is ambiguous.
## i Use `all_of(study_counties)` instead of `study_counties` to silence this message.
## i See <https://tidyselect.r-lib.org/reference/faq-external-vector.html>.
## This message is displayed once per session.
```

Table 4: County Population

month	oregon	lane	multnomah	washington	baker	clackamas
2020-01-01	4241000	383254.6	816168.1	601039.4	16672.60	421825.1
2020-02-01	4244743	383538.2	816908.3	601706.8	16677.19	422249.2
2020-03-01	4248487	383821.8	817648.4	602374.2	16681.79	422673.3
2020-04-01	4252231	384105.5	818388.6	603041.6	16686.39	423097.4
2020-05-01	4255975	384389.1	819128.7	603709.0	16690.99	423521.5

## Violent Offenses

Violent offenses are of particular concern so let's look at those offenses. To determine which offenses are violent we use the FBI's definition of violent crimes to categorize the 'NIBRS Report Title' column in the data set.

Table 5: Violent Offense Titles

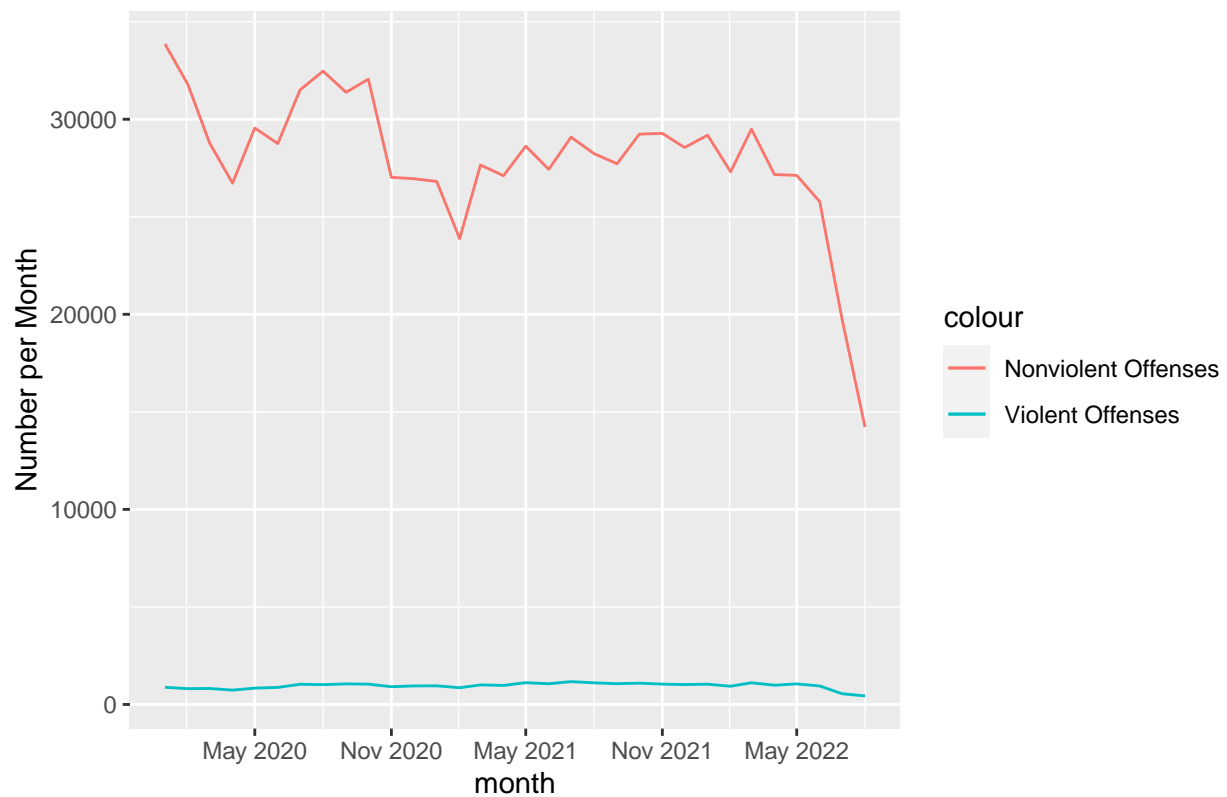

x
Aggravated Assault
Forcible Rape
Forcible Sodomy
Robbery
Willful Murder

We can look at the break down of these violent offenses for the whole state.

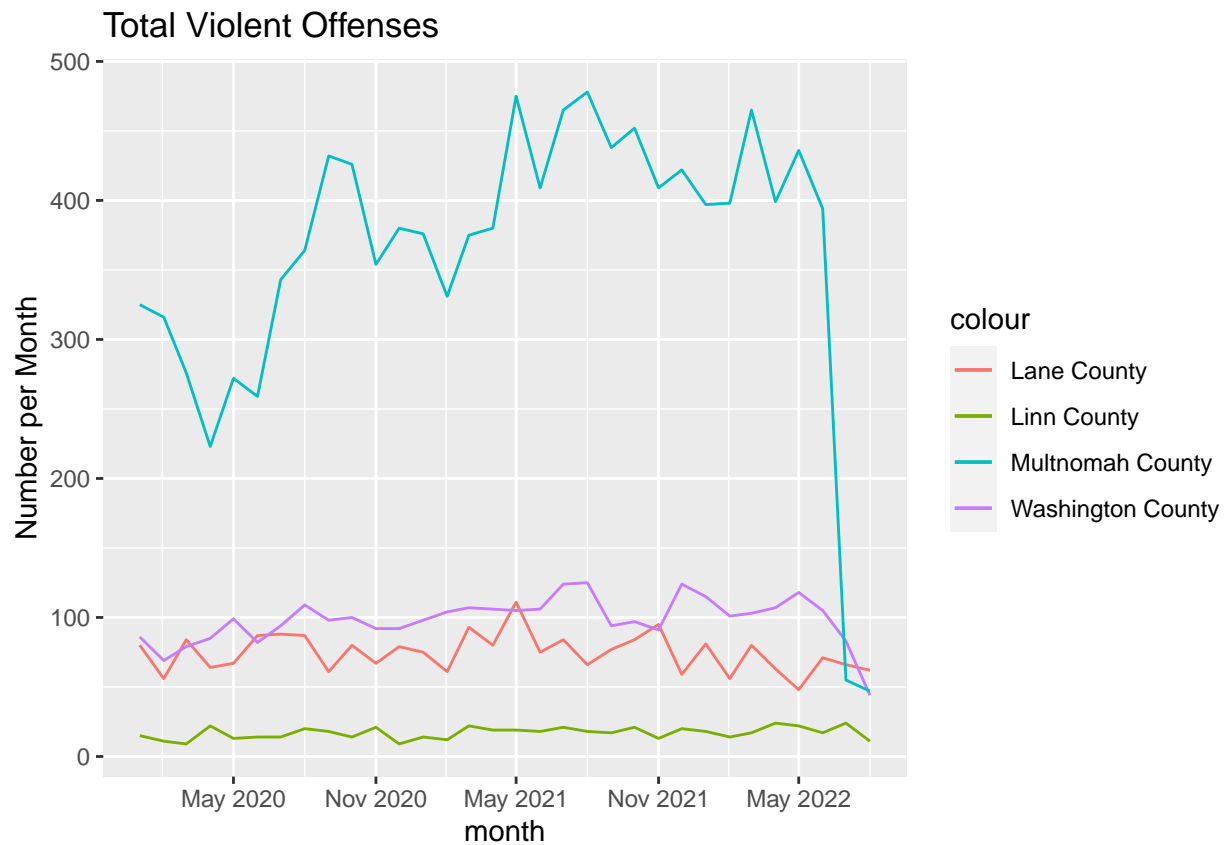

We can also compare the number of violent offenses verses non-violent offenses for the state over the study period.

Violent vs Non Violent Offenses in Oregon

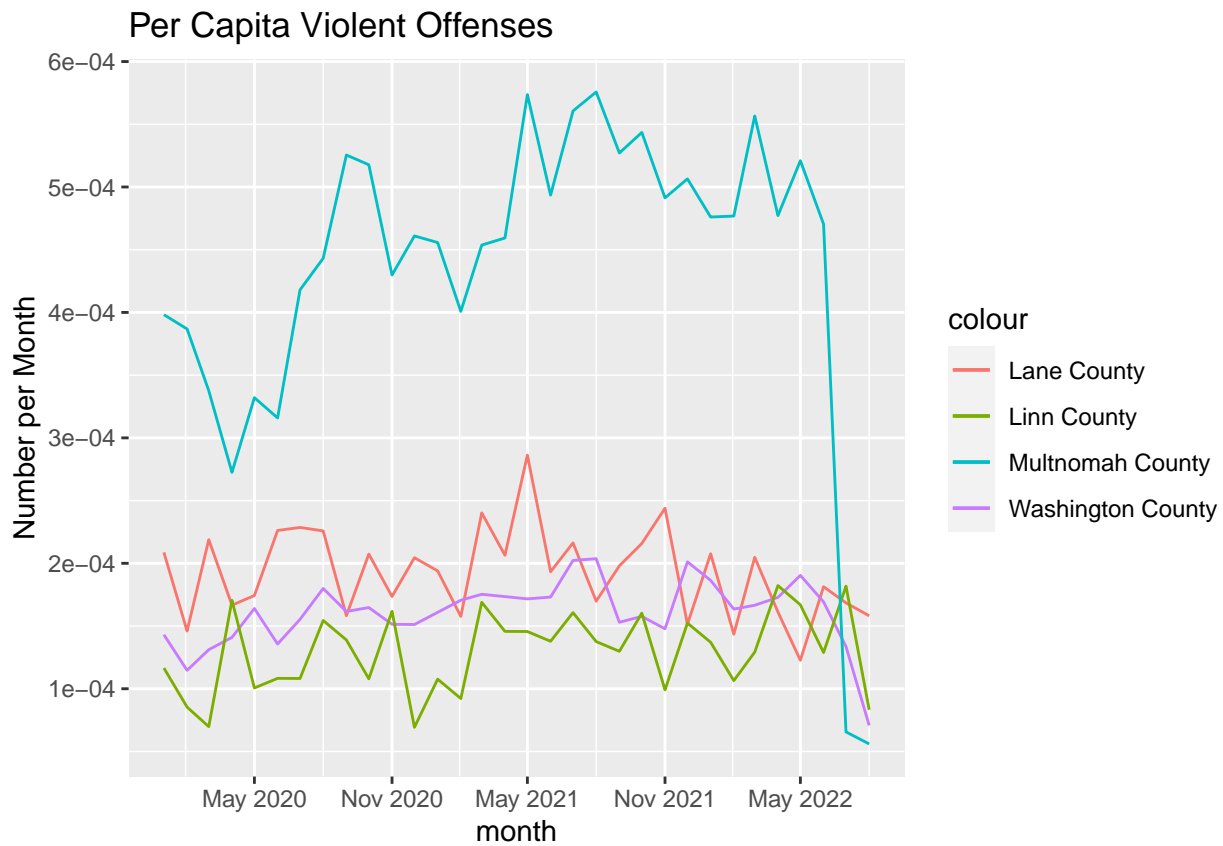

Next we can look at the total number of distinct violent offenses by county.

Recall from the population table that these counties vary greatly by population. So, using the population data we can plot the above graph adjusted to the county's population.

## Violent Offenses by County

can look at the aggregates of violent offenses by county.

We

Table 6: County Total Violent Offenses

	county	offenses	percap_off
1	oregon	0	0.0000000
2	baker	79	0.4739621
4	clackamas	1898	0.4504023
21	lane	2387	0.6232848
27	multnomah	11571	1.4190094
35	washington	3142	0.5233422

From the table it appears that the rate of violent offenses is far higher in Multnomah county than others.

Table 7: Counties with Highest Per Capita Violent Offenses

	county	offenses	2020	percap_off
26	multnomah	11571	815428	1.4190094
18	klamath	624	69413	0.8989671
4	clatsop	346	41072	0.8424231
24	marion	2784	345920	0.8048104
17	josephine	682	88090	0.7742082
34	wasco	197	26670	0.7386577
